or it may se on private account. The ippines, Purpo Ruo, and perhaps the Cadifference between these two posicies may marks. Mr. McKiniey can rise and truth-

and how the managers of the company taink best. A mill run on this policy we call a merchant mill. It does not grind for individuals; it grinds only on com-

"Similarly there are two policies of coinage. If the government says to the owners of a money metal. Bring your metal to the mint whenever you wish and in such quantities as please you; the gov-ernment will convert it into com for you. and will hand back to you the coin made out of your own metal'-if such be the policy of coinage, if the government coins for individuals, as the custom mill used grind for individuals, cottage is said be 'on private account.

But if, on the other hand, the government says: 'The metal which we shall coin we shall first of all buy. The metal will then belong to the government, to be disposed of as the government deems best in the interests of its citizens." If such be the policy of coinage, coinage is said to be on government account." "When coinage is on private account

the volume of coins issued is determine! by the choice of individuals. The owners the money metal may or may not have t converted into coin for use as money. But when coinage is on gov: moent account, the volume of the coin issued for circulation is subject to the control of the "In this country the coinage of gold has

"The whole country is interested in been for more than a century on private Kansas. That interest began more than account. In 1853 the United States adopted the policy of coining sliver on government account and that policy has been continued ever since. Uncle Sam virtually says, 'I am willing to leave the volume of gold coin to be determined by the judgment of individuals. But silver coin is sected by my people every day in their business transactions. I have learned from experience from 1834 to 1853 that I could not tepend upon the men who own silver to the privilege of setting foot on the soil of have it coined for use as money. In 1821 I

and have been doing so ever since "The so-called 'free coinage' of silver means collage on private account without any toll being charged by Uncle Sam. The to me been surrounded by a halo of inter- | wish to take away from Uncle Sam his est. I have rejoiced in your achievements power to control the volume of silver coin and sympathized in your misfortunes. In circulation. We believe in continuing that power in his hands.

"No one will contend that by the change of policy from that of the custom mill to that of the merchat mill wheat has been that by the change from coinage on private account to colnage on government account | ter of simple justice to my Democratic

THE LOGICAL CONCLUSION. "Returning now to our Populist friends, we see clearly that in ottacking our present policy of silver coinage on government 1892. In the latter year the country gave account they abandon their fundamental propositio that the volume of money should se controlled by the government.

"But enough of the past. What of the present and of the future? As individuals Democratic party was to rid liself of its and us a nation our hearts are filled with gratitude for a thousand blessings, with pride in a thousand achievements. the dark days of adversity we have seen the dawn and are now in the early morning of renewed prosperity. Keynotes the Democratic Campaign Policy.

OPPOSITION TO THE WAR

After It Is All Over and the Victory Won.

Danville, Va., Sept. 19.-Congressman Bailey spoke at Chatham, the county seat, today in the interest of C. A. Swanson, Democratic nominee for congress from the Fifth district. People for miles around were in the biz growd to hear the Texan. Mr .Bailey made it plain that the Demourats mean to make the present cam paign an agressive one. Among other things of similar import he said:

"For months Republican politicians and Republican editors have talked and written incessantly about the mistakes of the Democratic party in congress, but now that they are required to specify our mistakes in order to divert public attention from their own they find it impossible to make good their repeated and reckless and universal indignation which this been to find some damaging accusation which they can sustain against us. But they The record of the Democratic party out throughout the last surring session of congress is absolutely above all criticism. Neither is it proper to say I do not say it with the purpose of claiming any credit for myself, but as a marassociates, I deciare that in all the litstory of this g vernment no minority party ever passed through a war session of congress with so much credit as did the Dem-

rais of the present congress. "The only important vote which we be-Heved at the time could ever become the subject of reasonable controversy was our rote against the war revenue bill; and events have completely vindicated our course in respect to that measure. We opposed the passage of that bill because we believed that it authorized an unneceasary sale o finterest-bearing bonds, and the condition of the treasury proves conclusively that we were right. When congress conveness in December next it will find that the surplus in the treasury above the one hundred million gold reserve will exceed the amount received from the sale of bonds, thus demonstrating that there was no necessity for the government to sell the bonds.
